PROFILE

Highly motivated and skilled React Developer with a passion for crafting dynamic and user-friendly web applications. Aspiring to leverage my expertise in front-end development and proficiency in React.js to contribute to innovative projects that redefine the digital landscape. Seeking a challenging role in a collaborative team environment where I can continuously learn and grow while delivering exceptional user experiences through clean and efficient code. Committed to staying abreast of emerging technologies and best practices to create cutting-edge solutions that push the boundaries of web development.

SKILLS

- HTML
- CSS
- JavaScript(ES6)
- Typescript
- React
- Bootstrap
- Tailwind
- Styled Components
- Material UI
- Nodejs
- MYSQL
- Git
- NextJs

PROFESSIONAL EXPERIENCE

Freelancing

04/2023 – present
Hyderabad

- Created static websites utilizing ReactJS and Tailwind CSS for various clients.
- Successfully conceptualized and developed personalized websites tailored to specific client preferences, reflecting their unique identities and objectives.

FrontEnd Developer Intern

09/2022 – 04/2023

Cheezle Ventures pvt Ltd

- Developed interactive and responsive user interfaces using React.js, creating seamless user experiences that increased user engagement.
- Designed and built UI components with Tailwind CSS, optimizing development speed and maintaining a consistent design system.
- Collaborated closely with designers, backend developers, and other team members to translate design mockups into fully functional and visually appealing user interfaces.
- Developed Redux stores, reducers, actions, and selectors to manage and update application state, ensuring consistent data throughout the app.

PROJECTS

E-Commerce Project

- Created a dynamic e-commerce platform utilizing React JS, ensuring responsiveness across devices.
- Skillfully managed application-wide states and props to enhance user experience.
- Implemented robust form validation methodologies, employing useRefs, Formik, and Yup.
- Established seamless API integrations to retrieve and display product information.
- Leveraged React Redux Toolkit to establish a centralized store for effective cart item management.
- Devised custom hooks to optimize cart management and streamline API interactions.
- Successfully integrated Stripe, empowering the platform with secure payment processing capabilities.

Admin Dash Board Project

- Created an interactive dashboard using React.js and Syncfusion components, offering a comprehensive view of key metrics.
- Integrated various Syncfusion components (data grids, charts, calendars, etc.) to showcase data without backend, sourced from a data.js file.
- Managed state with Context API and navigation with React Router DOM.
- Designed responsive charts (line, area, bar, financial) using Syncfusion's charting library.
- Implemented a customizable data grid with sorting, filtering, and more using Syncfusion GridComponent.
- Maintained version control using Git and deployed the app on Netlify. (Link [↗](#))

Food Order Project :

- Developed a responsive **Food Order App** by using **Nextjs**.
- Utilized Next.js to build the app frontend for its server-side rendering and efficient routing capabilities.
- Implemented a fully responsive design using Tailwind CSS ensuring optimal user experience across various devices and screen sizes.
- Designed and developed reusable components such as Navbar, Slider, Featured Products, Offer Page, Menu Page, Category Page, Cart Page, Orders Page, Login Page.
- Focused on providing an intuitive and user-friendly experience, allowing customers to easily browse the menu, add items to the cart, and proceed to checkout.
